(DI/USAF-ONLY Study No. 245

30 June 1950)

389

TARGET SYSTEMS SUBMITTED FOR CONSIDERATION FOR THE STRATEGIC
AIR OFFENSIVE IN SUPPORT OF THE OBJECTIVES OF THE JOINT
EMERGENCY WAR PLAN, FISCAL YEAR 1951

INDEX

- APPENDIX "A" Target Systems Submitted for Consideration for Attack in the Strategic Air Offensive
- Introduction
 - Basic Factors of Target Analysis
 - Criteria of Target Selection
 - Target Systems Submitted for Consideration
 - Availability of Target Materials
 - Recommended Combination of Target Systems
 - Targets in Satellite Countries
 - Requirements for Psychological Warfare and Demolition Programs
- APPENDIX "B" The Vulnerability to Strategic Air Attack of the U.S.S.R. Capability to Deliver an Atomic Offensive Against the U.S.A. and Its Allies
- Introduction
 - Atomic Warfare Capabilities of the U.S.S.R.
 - Effects of Attack in 1950
 - Countering Initial Attacks
 - Possible Target Systems
- APPENDIX "C" The Vulnerability to Strategic Air Attack of the Advance of the Soviet Army and Supporting Elements into Western Eurasia
- Probable Pattern of Soviet Advance into Western Eurasia in the Event of War in 1951
 - Soviet Army Capabilities to Mount and Sustain Advance into Western Eurasia
 - Types of Targets Considered for Retarding Soviet Advance
 - Allocation of Atom Bombs and Effects of Attack
 - Availability of Target Materials
- APPENDIX "D" The Vulnerability to Strategic Air Attack of the Soviet Naval Capabilities
- Definition of the Soviet Naval Capabilities
 - Targets Considered

USAF Declass/Release Instructions On File

TOP SECRET

Document No. _____
Review of this document by CIA has determined that

- ☐ CIA has no objection to declass
- ☐ It contains information of CIA interest that must remain classified at TS S C

Authority: HR 70-2

Date 2/2/81 Reviewer 19760

APPENDIX "E" The Vulnerability of the U.S.S.R. to Strategic Air Attack
on Governmental Control Centers

Introduction

Control Structure

Attack Possibilities

Possible Weapon Utilization

Effects of Damage to Control Structure

APPENDIX "F" The Vulnerability of the U.S.S.R. to Strategic Air Attack
on Targets Selected out of Psychological Considerations

Introduction

Psychological Vulnerability Aspects of Soviet Society

Psychological Vulnerability Aspects of Soviet Satellites

Targets Selected out of Psychological Considerations

Maximizing Positive Psychological Effects of Strategic Air
Attack

APPENDIX "G" The Vulnerability of the U.S.S.R. to Strategic Air Attack
on Targets Selected to Reduce the Labor Force

Importance of Labor

Structure of the Labor Force

Vulnerability and Force Requirements

Effects of Attack on Population

Estimated Casualties from Attack on Industrial Installations

APPENDIX "H" The Vulnerability of the U.S.S.R. to Strategic Air Attack
on Transportation

Transportation as a Strategic Target System

Importance of Soviet Transportation

Vulnerability of Soviet Transportation System to Strategic
Air Attack

Availability of Target Materials

APPENDIX "I" The Vulnerability of the U.S.S.R. to Strategic Air Attack
on the Atomic Energy Industry

Summary

APPENDIX "J" The Vulnerability of the U.S.S.R. to Strategic Air Attack
on the Liquid Fuels Industry

Importance of the Industry

Structure of the Industry

Vulnerability and Force Requirements

Effects

Availability of Target Materials

APPENDIX "K" The Vulnerability of the U.S.S.R. to Strategic Air Attack
on the Electric Power Generating Industry

Importance of the Industry

Structure of the Electric Power Industry

Vulnerability Factors and Force Requirements

Effects

Availability of Target Materials

APPENDIX "L" The Vulnerability of the U.S.S.R. to Strategic Air Attack
on the Steel Industry

General

Importance of the Industry in the National Economy

Structure of the Industry

Vulnerability Factors and Force Requirements

Effects

Availability of Target Materials

APPENDIX "M" The Vulnerability of the U.S.S.R. to Strategic Air Attack
on the Aircraft Industry

General

Importance

Structure of the Industry

Vulnerability and Force Requirements

Effects

Availability of Target Materials

APPENDIX "N" The Vulnerability of the U.S.S.R. to Strategic Air Attack
on the Combat Shipbuilding and Repair Industry

Importance of the Industry

Structure of the Industry

Vulnerability Factors and Force Requirements

Effects

Availability of Target Materials

APPENDIX "O" The Vulnerability of the U.S.S.R. to Strategic Air Attack
on the Ground Munitions Industry

Importance of the Industry

Structure of the Industry

Vulnerability Factors and Force Requirements

Effects

Availability of Force Requirements
